

Technical Meeting & Annual Student Night with AWS-National President John Bruskotter

Macomb Community College and Lincoln Electric are pleased to host the AWS-Detroit Section September Technical Meeting and Annual Student Night at Macomb Community College, South Campus in Warren, Michigan. The AWS Detroit Section is proud to announce that AWS-National President John Bruskotter will be presenting his talk 'AWS Energizes the World'. The AWS-Detroit Section will also be presenting the awards for our annual scholarship program.

About our Hosts

Macomb Community College provides learning experiences to more than 59,000 students annually with three main Michigan campuses located in Warren and Clinton Township. More than 23,000 students are pursuing degree credit coursework this semester. Macomb Community College offers an Applied Technology program in Welding Processes where students train for various careers in welding in the Automotive, Medical, Aerospace, Defense, Green, and Consumer industries. Certificate, degree, and articulation programs are available. Along with traditional classroom and hands on welding training, Macomb Community College students have the opportunity to participate in real world projects that enhance their skills and give them a competitive edge. From challenging fabrication projects to learning to weld both indoors and outdoors in the elements, Macomb Community College students have an opportunity to acquire valuable skills others do not. Macomb partners with many corporations in industry and other educational institutions to help train their students for the workforce.

Lincoln Electric was founded in 1895 and today is a world leader in the design, development and manufacture of arc welding products. Headquartered in Cleveland, Ohio, Lincoln Electric is dedicated to education. Lincoln Electric Welding School has instructed over 100,000 men and women in the various arc welding processes since 1917. Technical seminars provide information on the latest issues in safety, quality, processes and Lincoln products. Lincoln has been publishing "*The Procedure Handbook*", has provided knowledge to welding people throughout the world with sales in excess of 500,000 copies since 1933. Various other resources are made available through The Lincoln Electric Bookstore or the James F. Lincoln Arc Welding Foundation. Professional seminars, held for over fifty years, inform participants of the latest in engineering practices and concepts, ranging from the fundamentals of weldments design, to advanced subjects such as fracture mechanics and fatigue.

The AWS-Detroit Section, Macomb Community College, and Lincoln Electric hope that you will take this opportunity to attend the September Technical Meeting and learn how you can further your career in welding!

Technical Meeting Agenda

5:00 pm Open House and welcome reception with AWS-Nat'l President John Bruskotter and The Lincoln Electric VRTEX 360 Virtual Welding Simulator
